

**VOLUME 6 PRICE [L.34, M.3]**

**1.0 Price Response [L.34.1]**

Level 3's Price Volume describes in detail our approach to meeting the requirements in RFP Section B. Our following proposal sections 1.1-1.9 offer details on how we address the requirements in RFP Section B.

**1.1 Pricing Hubs (PHubs)**

Level 3 is a facilities-based Competitive Local Exchange Carrier (CLEC). Our fiber networks spans across [REDACTED]

[REDACTED]

- [REDACTED]

- [REDACTED]

- [REDACTED]

When Level 3 moves a [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

The nomenclature is as follows:

- [REDACTED]
- [REDACTED]
- [REDACTED]
- [REDACTED]
- [REDACTED]

As an example, [REDACTED]  
[REDACTED]

### **Pricing Strategy for Adding Building NSCs to PHubs Post-Award**

For Building NSCs that are not already assigned to a Phub, when pricing out a task order (TO), Level 3 is proposing [REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED] Level 3 will not change the effected Phub(s).

### **1.2 For Physical Concentration Locations (PCLs) and Points of Presence (POPs)**

For off-net locations, Level 3's costs are determined by a number of factors:

- [REDACTED]  
[REDACTED]  
[REDACTED]
- [REDACTED]  
[REDACTED]
- [REDACTED]  
[REDACTED]

As noted above, all of these factors are dynamic. Carriers, including Level 3, are installing fiber optic networks into buildings all of the time. In addition to installing fiber into buildings, Level 3 and other carriers install fiber into data centers or carrier hotels, where it is possible to establish new interconnection points which could change where

handoffs between carriers occur. New MSAs are established, old ones are renewed, and rates continually change. How Level 3 puts together a circuit today may change tomorrow.

The other issue is that [REDACTED]

[REDACTED]

In our experience, the most likely location that we can [REDACTED]

[REDACTED]

[REDACTED]. There is only one of the latter.

This may change on a TO-basis when [REDACTED]

[REDACTED], because everything could change by the next TO.

### **Process for Associating PCLs to POPs**

The same issues concerning the assignment of PCLs also occurred with defining the POP. For off-net sites, the access path will change as the elements associated with costs change. The Government could acquire the same access for the same service at two different times, even where the pathways differ. At Level 3, [REDACTED]

[REDACTED]

For the assignment of a [REDACTED]

**Process for Defining Services Associated with a POP**

Again, the same issues concerning the [REDACTED]

**Process for Maintaining and Updating the Tables in Section B.4**

After the receipt of the award, [REDACTED]

**1.3 Individual Case Basis (ICB) CLINs**

**Understanding of the Use of ICB CLINs**

**Approach to Create a Price for an ICB CLIN**

The approach is completely dependent on what the CLIN is for and how it fits into the rest of the Government's requirements.

For example, [REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]

[REDACTED] Once we know our options and their cost, we will choose based on the best value.

A more complex situation occurs when the definition of the service is not pre-defined. For example, [REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]

Level 3 is bidding [REDACTED]  
[REDACTED]  
[REDACTED]).

### **1.4 Task Order Unique CLINs (TUCs)**

#### **Understanding of the Use of TUCs**

A Task Order Unique CLIN (TUC) is [REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED].

TUCs must be [REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED].

One example of an acceptable use of a TUC [REDACTED]

**Approach to Determine that an Agency's Requirements are Best Met by a TUC**

In general, the first choice is to always [REDACTED]

**Maintaining the Information for TUCs Based on Combining Component CLINs**

A TUC is loaded into the [REDACTED]

**1.5 Geographic Coverage Strategy**

To the greatest extent possible, [REDACTED]

[Redacted text block]

**1.8 Approach to Device Size Assignment in Table B.2.8.1.3.2**

The assignment of device size is based on the device's core functions (Figure 1.8-1).

**Figure 1.8-1 Approach to Device Assignment**

- [REDACTED]

- o [REDACTED]  
[REDACTED]  
[REDACTED]

[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]

[REDACTED] Following notification of the GSA CO and affected agencies, Level 3 no longer accepts orders for the item.

### Process for Setting up User Access

Level 3 will help authorized users with User access to the Level 3 Catalogs. The catalogs will be a component of the Level 3 GSA Customer Portal. [REDACTED]

[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]

### User Interface

Level 3's [REDACTED]  
[REDACTED]  
[REDACTED]

[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]

[REDACTED] Please note that the catalogs are under development and the actual grouping of services, the names, and other details are subject to change.

### Rationale for Grouping Discount Classes

As described below, Level 3 started [REDACTED]

[REDACTED]

### Rationale for the Discount Structure

There were sufficient [REDACTED]

[REDACTED]

### Approach to Validating OLPs

Level 3 required all partners to list the [REDACTED]

[REDACTED]

We added in the notes section of the pricing table, where possible, not only the website, but how to navigate through the website to find the OLP. That is included, and in one case expanded where limitations to the notes field required removal of some of the information, in Section 3, below. Unfortunately, providers change their websites, and the information will become outdated over time. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

## 2.0 Price Tables/Data

All Price Tables/Data for Volume 6 Price have been uploaded via the AcquiServe portal.
